A MESSAGE FROM INTERIM SUPERINTENDENT DR. MELISSA STEWART

We want our students to feel seen; we want our students to feel heard.

This is the heart of our #IHPromise.

This New Year started a new era for the Indian Hill School District. And, having served our children since becoming a Brave in 2007, I felt humbled that our Board of Education would ask me to step into the role of Superintendent...and excited.

For years, I've watched generations of Braves both enter and graduate from our buildings. Each child learning how to be the best version of themselves they can be; each child coming to us with a dream that we have dedicated our lives to helping them achieve.

This is what it means to be an educator.

As Superintendent of Schools, the first item on my agenda was to pull up a chair and listen. That is exactly what I have done. With community members, with partners, with parents, with teachers and staff, with administrators, with

Board members...and, as you will experience in our State of Schools video presentation – with our students.

Yes.

This New Year started a new era for the Indian Hill School District. But one thing that will always remain the same: We love kids. And we support ALL 2,205 of them who know the Indian Hill School District as Home.

I can't wait for YOU to hear how our STUDENTS define the state of our schools.

Dedicated to the success
of our children,

Dr. Melissa Stewart

I play the violin, and I just started. I really enjoy playing it. It comes in with science, too, because in science you learn about pitch and sound and the violin can help with that.”

I developed a nonprofit, Teens Together, which raised \$10,000 to donate to Dayton Children’s Hospital and its Growth Hormone Fund so that more kids suffering from GHD can get the treatment they need. Support came from families in the district helping us raise thousands of dollars from the kindness of their own hearts.”
